

Additional tiers of element only available on enclosure 12" and taller

NOTE: Element with 4" x 4" fins CANNOT be used.

- ① Fasten hanger strip to wall at required height. Ensure strip is level and that the hanger strip runs the entire length of enclosure.
- ② Mount BKTEO brackets at required distance below the hanger strip.
- ③ For 2 tier elements, mount and fasten BKTEO brackets at 6" spacings.
- ④ Install cradles onto brackets by placing cradle on bracket and insert the plastic fastener through the slot in the cradle into the hole in the bracket.
- ⑤ Install heating element onto BKTEO brackets, ensure tubing rests on cradle.
- ⑥ Place top of enclosure panel onto hangerstrip and swing bottom of panel down to the wall and fasten into wall.
- ⑦ For 2 or more side by side enclosure panels, join by an internal panel joiner. (See Detail 'A')
- ⑧ If an access panel is used, join access panel to enclosure panel by a joiner strip and an additional mounting bracket. (not shown)
- ⑨ Place trim strip on top of enclosure panel and swing bottom of trim down to wall and fasten to wall. For corners (9a), fasten at top and bottom by #10 screws.
- ⑩ If an access door is required, locate it on enclosure panel, cut out a 5 1/2" square opening and drill four 1/4" diameter holes on corners of 6 1/2" square. Mount and fasten access door assembly.
- ⑪ Correct element orientation when using 2 3/4" x 4" element for slimline enclosure.
